### **HCT Center: Select Services**

Regen Med works as a partner, not a vendor, with its clinical Affiliates to establish HCT Centers. Far from being another "cell laboratory", an HCT Center and its integrated services are designed to overcome the barriers to clinical translation of contemporary HCT science. The regulatory, patient population, financial structure and other practice elements differ for each institution. As such, we tailor our approach to the specific needs of the Affiliate.

## DATA COLLECTION AND REPORTING PLATFORM

Royalty-free license for the use of inCytes by the Affiliate for up to fifty employees. Design and coding of limited number of Affiliate-specific white-label Treatment Paths.

#### EQUIPMENT, DEVICES, PHYSICAL SPACE

Determination of devices and other platforms for regenerative medicine procedures.

Negotiations with distributors and suppliers on pricing, and ancillary services.

## HCT CENTER EXPANSION

Expand HCT Center activities into additional clinical directions and products, such as biobanking and special cell/tissue based diagnostics. Establish and/or connect with additional HCT Centers in other clinics and regions.

#### PRODUCT INCUBATION

Assistance with identification, intellectual property protection and monetization of products and other inventions developed at the HCT Center.

## PROFESSIONAL COLLABORATION

Consultation through Regen Med's Clinical/Scientific Advisory Board, CELLS™ Conference faculty, and other members of its international professional network for study and trial design, presentations and papers, clinical and scientific advice and similar matters.

#### HCT CENTER SELECT SERVICES

#### CELLS™ CONFERENCE

Organize and host international conferences using the CELLS™ brand.
Assets include expert faculty, broad sponsorship contacts, and international attendee mailing lists.

## SUPPORT FOR REIMBURSEMENT

Develop data and associated materials supporting reimbursement for specific regenerative medicine procedures. Assist in communications with private and government payors.

marketing materials.

MARKETING AND COMMUNICATIONS

# REGULATORY COMMUNICATIONS

Assistance with website design

programs, and other on-line and

off-line HCP-and patient-oriented

and content, social media

Identify and document regulatorily-compliant regenerative medicine procedures. Establish HCT product release criteria. Support ongoing transparency with regulators.

## MEDICAL DESTINATION OPPORTUNITIES

Utilization of Regen Med Network, inCytes ™ and other Regen Med resources to develop international patient flow.

## EDUCATION AND TRAINING

Conduct seminars, workshops and training sessions.
Establish qualifications and accreditation for HCT Center personnel.

#### STUDIES, TRIALS

Develop industry and/or government sponsored training and education sessions, private studies or clinical trials.

For more information on HCT Centers and inCytes, see the relevant documents on the Company's <u>Corporate Literature</u> page. In all cases where Regen Med is a participant in the HCT Center, it provides the foregoing services for free, or at its cost when engaging third-party vendors with the approval of the Affiliate.
